

Wayland, July 6<sup>th</sup>, 1860.

Friend Garrison,

85-

Do you want to publish any more Tracts? Or have you already as many irons in the fire as you can attend to? I have compiled a short one, which I should like to have published, if it should be approved by the Committee. If you want an Almanac made, you ought to be about it soon; for there is always unlooked for delay, especially about the illustrations.

When you decide to have one made, I will come and talk with you about it; for if I get a clear understanding in the beginning concerning what is wanted, I can work more intelligently and rapidly.

Very cordially your friend,

L. Maria Child.

William Lloyd Garrison.
